SIMPLY THE BEST

BETTER THAN ALL THE REST

YOU'RE NUMBER ONE

And you deserve the best. UC ranks first in teaching quality and student satisfaction in a range of undergraduate and postgraduate courses. What's more, our graduates have higher starting salaries and an 89 per cent graduate employment rate.

GET YOUR HANDS DIRTY

Get a head start with hands-on learning. Our Work Integrated Learning gets you job ready with practical work-based projects, internships and industry networking in every course.

MAKE THAT MONEY

Want to hit the ground running? Our graduates in the ACT earn the highest average salaries in Australia, making Canberra an outstanding choice for Australian and international students looking to get ahead in their careers.

FLEX IT

Maximise your uni experience with flexible study options, including online, on-campus, flexible, intensive and self-paced. You choose the place, time and intensity of study to fit your life.

SEE THE WORLD

Spread your wings and study overseas as part of your degree. UC has a whole range of different opportunities to suit your interests and varied options for the length of time you wish to spend away.

REST EASY

All eligible first-year domestic students are guaranteed accommodation on campus. Settle in fast by soaking up campus culture and making besties in your brand-new home.

LIVE IT UP

By choosing UC, you're choosing to live in the best city in the world. Canberra has been named the city with the highest quality of living worldwide an incredible five times. Canberra's top spot in the global rankings highlights the ongoing relevance of the OECD's 2014 report, which labelled Canberra the best place to live on the planet.

“

To go from studying journalism to having the chance to put my studies into practice on-camera was amazing.

”

LEWIS HASKEW

UC Alumni

When Lewis Haskew put on his graduation cap and gown, he'd already worked in his dream job for months. Now a much-loved voice on Canberra's airwaves, Lewis secured his role as a news reader for the ACT's most prolific radio network, Canberra FM, while completing his Bachelor of Communications in Journalism at UC.

Lewis credits his success as a young journalist to the opportunities he received as a student. 'At uni, I learnt a lot about myself — who I am and what I want to do,' he reflects. 'My tutors and lecturers were either working journalists, or former journos with a tonne of experience in the field. They brought their own stories to the classroom and used their connections to help me get a foot in the door.'

'One of my lecturers was a former ABC journalist, with strong connections to ABC Canberra. She helped me get my first internship at the ABC studios, and my career's progressed from there.'

In his final year, Lewis won the Peter Leonard Scholarship for Broadcast Journalism. After spending three weeks working at WIN Television, Lewis' segments aired in prime spots in the evening news. 'It was incredibly exciting. To go from studying journalism to having the chance to put my studies into practice on-camera was amazing.'

Canberra has proved the perfect place for Lewis to start his career. 'I love Canberra — it's a world-class city without all the people.'

'For students, having national media at Parliament House and unique local media outlets creates great opportunities for hands-on experience.'

YOUR UNI EXPERIENCE

LIVE LIFE LARGE

2020 COURSE GUIDE

UC isn't just about late nights in the library.

It's also about late nights dancing to bands, long afternoons hanging out with like-minded people and early mornings playing your favourite sport. Take a deep breath and dive headfirst into your uni experience. You won't regret it.

O-WEEK

Start the year with a bang at UC's Orientation Week (3–9 February 2020). Get ready for your classes, find your way around campus, meet a tonne of new people and have heaps of fun.

O-Week includes free cultural and social events, such as our Amazing Race Challenge, bus and boat tour, student meet and greets, themed trivia nights, cultural club events, toga party and much more.

You'll feel confident about your first semester with enrolment help, study skills presentations, course advice sessions, and library and campus tours.

UC LIFE!

Put down your books – it's time to party. Throughout the year, UC Life! throws events that are perfect for getting involved, meeting people and having a huge amount of fun. Keep your eyes peeled for live music blow-outs, O-Week celebrations, competitions and giveaways, university sports games, Stress Less Week and free food.

CLUBS AND SOCIETIES

Connect with people who love what you love. Join one of our student clubs and societies to meet new people, share ideas and expand both your circle of friends and professional network. Whether you're a bookworm, social butterfly, sporting hero or culture queen, there's a club to suit you. And, if there isn't, you can create your own!

SPORT AT UC

If you love sport, you're in the right place. Whether you're barracking for one of our affiliated professional sporting teams or getting sweaty playing for one of our many sporting clubs, there's something for everyone at UC.

Our Sporting Commons provides state-of-the-art facilities and classes – the gym is so high tech that the Brumbies Super Rugby team and UC Capitals WNBL team train here. It's also home to the Research Institute for Sport and Exercise (UCRISE), where you can gain invaluable professional experience in the sports industry. In addition, we help professional athletes achieve their sporting and academic goals by partnering with the Australian Institute of Sport.

Make new friends and let your competitive streak run wild by joining in on a range of student competitions, including the Australian University Games, the Snow Unigames and Intervarsity Sport. Love being ringside? Take advantage of ticket giveaways throughout the year thanks to our generous sporting partners.

Visit ucunion.com.au to find out more.

CAMPUS ACCOMMODATION

FIND YOUR TRIBE

Uni is as much about the friends you make as the courses you take.

Campus accommodation is the perfect way to meet new people and make mates for life. You'll be amazed at how quickly you'll form friendships and create lasting memories.

We have two accommodation providers on campus – UniLodge and the University of Canberra Village – each offering a range of living arrangements and price options.

For more details, including accommodation options and prices, visit canberra.edu.au/on-campus/accommodation

OFF-CAMPUS

Canberra has plenty of great accommodation options, including renting, sharing and homestays. If you're keen to live in off-campus shared or private accommodation, visit canberra.edu.au/residences/off-campus

ACCOMMODATION GUARANTEE

When you start at UC, you don't need to worry about finding a place to live. We offer guaranteed accommodation to all eligible first year domestic students and all international students.

I loved every moment of my time
studying abroad in Italy.
Learning from the world's best
fashion marketers gave me skills
that I use every day.

”

EMILY COATES

UC Alumni, Owner and Editor, HOORAY!

Energetic, driven and agile, Emily Coates' success stems from taking chances, believing in her talent and actively embracing new challenges.

While studying for her Bachelor of Advertising and Marketing Communication, Emily took advantage of every exciting experience UC threw her way, including spending a semester studying fashion marketing in Milan at the Istituto Europeo di Design.

'Studying abroad was a real highlight of my time at uni. I learnt from some of the industry's top fashion marketers, stepped behind the scenes of luxury fashion brands and explored Europe on weekends. It doesn't get much better!'

After returning to Canberra with the world in her sights, Emily's diverse career has seen her do everything from managing

digital campaigns for Cartier to working on award-winning brand campaigns for the Australian Air Force, and starting her own social media consultancy agency to buying HOORAY!, an online magazine for lovers of parties and good times.

Exhausted? Ain't nobody got time for that!

Emily has lived her life by two simple rules: have your own back, and just say yes.

'Take opportunities as they come to you — big and small. You get invited to an event? Go. Someone asks you to get involved in a project? Do it. You never know where these small actions will lead.'

'Start making your own opportunities and — I promise — more will come your way.'

CBR PRIDE

WE LOVE CANBERRA

2020 COURSE GUIDE

Canberra has been ranked as the most liveable city in the world, with its residents enjoying the highest quality of life.

* OECD Regional Well-Being: A Closer Measure of Life, 2014

FEELING HUNGRY?

COFFEE

In Canberra, we take our coffee seriously. Very seriously. Embrace Canberra's café culture to discover great food, delicious pastries and fresh cups o' joe. Head to Lonsdale Street in Braddon for excellent java at Barrio and Lonsdale Street Roasters, or to the city to get your fix amongst the murals of The Cupping Room.

EATS

Jam-packed with award-winning restaurants, fresh food markets and annual food festivals, you'll never run out of places to eat in Canberra. From burger bars like Grease Monkey and Brodburger to Italian classics at Chez Frederic, there's something to satisfy everyone's tastebuds. Make sure you check out the annual street food festival The Forage, and head to the Belconnen Fresh Food Markets and EPIC Farmers Market for the best fruit and veg in town.

INTERNATIONAL

With around 25 per cent of the population born overseas, Canberra is a truly multicultural city. The Multicultural Festival takes over the city centre in February with over 300 food stalls from every part of the globe, as well as live music and dancing across six stages. Relive your European summer while enjoying cheap and delicious food at the Harmonie German Club or Polish White Eagle Club. Craving authentic Asian cuisine? Head to the suburb of Dickson for great laksa, dumplings and kimchi.

NIGHTLIFE

LIVE MUSIC

If you live for live music, the UC Refectory is going to be your new home. Located right on campus, this venue pulls seriously heavy punches, making sure UC students get to party to some of the biggest names in the country – think everyone from Allday to Peking Duk to Troye Sivan.

BARS AND PUBS

No matter your tastes, you'll be impressed with Canberra's booming bar scene. Famous for its grungy fine times, Bar Rochford (run by UC alumni Nick Smith) took out top place in Gourmet Traveller's 2018 'Bar of the Year' awards. Experience magical mixology at Highball Express and Molly's, Canberra's favourite speakeasy. If you're into craft beer, head to Bentspoke or Capital Brewing Co. to enjoy a pint in a working brewery.

“
UC helped me grow
as a person.

”

NICK SMITH

UC Alumni, Bar Rochford owner

If great bartenders make even better therapists, it should come as little surprise that Nick Smith, owner of Bar Rochford and kingpin of Canberra's burgeoning bar scene, holds a Bachelor of Psychology from UC.

'I studied psychology to learn more about myself,' Nick explains. 'I always felt I was good with people and wanted to be a counsellor at the time.'

As Nick moved through his degree, he grew in confidence, building writing skills, learning how to network and making new friends. 'UC helped me grow as a person,' he reflects. 'It gave me the guts to go out and get a job and made me feel secure in my ability to write well and connect with people.'

While psychology and hospitality are vastly different fields, Nick applies the skills he learnt during his degree to his current work at Bar Rochford. 'Running a bar is all about knowing how people tick. I work with people full-time and my degree informs the skills I need when dealing with the challenges of owning a business — giving people a chance, managing my staff's daily issues, and talking to customers.'

Thanks in part to Nick's skilled management of talented staff, Bar Rochford has experienced astronomical success in its short life – the establishment won Gourmet Traveller's 'Bar of the Year' and received its first hat in 2018.

'Mum was very excited,' Nick laughs. 'It's amazing to be part of a venue where you feel proud to come in to work.'

When asked to give advice to future students, Nick doesn't hesitate. 'Work hard, keep humble, and put 110 per cent into your craft. Otherwise, what's the point?'

HOLD ME CLOSER, TINY DANCER

Unlike other major cities we won't name (*cough* Sydney), our parties don't shut down just as things are getting started. Dance until dawn to national and international DJs at Mr Wolf or head to the famous Mooseheads for classic pub rock.

OUT AND ABOUT

CULTURE

As the capital of Australia, Canberra is home to our national cultural institutions. Art lovers can indulge their passion at the National Gallery of Australia while history buffs will have their minds blown at the National Museum of Australia.

And that's just the tip of the iceberg! Whether you're taking in a famous face at the National Portrait Gallery or learning about our diggers at the Australian War Memorial, living in Canberra will let you get up close and personal with Australia's cultural heritage.

FESTIVALS

Canberra is a festival lover's dream. There are all the classic favourites like Floriade, Skyfire, Enlighten and the Canberra Balloon Spectacular, but did you know we're also home to world-class music, food and culture festivals? Oktoberfest is a beer-snob's paradise, while Spilt Milk is a music festival that draws major bands.

ACTION

Canberra is called the Bush Capital for a reason – our stunning natural surrounds are made for adventure. Explore nearby Namadgi National Park, Stromlo Forest Park, Corin Forest and the National Arboretum. Snow-bunnies and surfers won't have to travel far either – Canberra is only a two-hour drive to the coast or fresh powder.

WORK INTEGRATED LEARNING

GET YOUR HANDS DIRTY

Now more than ever, it's vital to have hands-on experience in the workforce before you start your career.

We give you an unrivalled competitive edge, making you a stand out candidate for your future dream job before you even graduate.

As a UC student, you have access to UC's famous Work Integrated Learning programs. We're committed to your professional development and strive to build exciting work-based projects and opportunities into every one of our courses.

We know that you can't wait to get your career started. Armed with workplace experience, you'll put on your cap and gown ready to hit the ground running.

Work Integrated Learning comes in many forms:

- Internships let you immerse yourself in a work environment relevant to your course. Supervised by employers, you'll put your knowledge into practice.
- Industry, research and community projects enable you to participate in your local communities, research centres and industry, empowering you to make real contributions to projects you care about.
- Clinical placements are key components of Health courses and are required for professional accreditation.
- Teaching professional experience is woven into all year levels for Education. You'll graduate classroom-ready, with a wealth of vital skills.
- Professional mentoring is your chance to learn from industry experts and forge important relationships with community stakeholders.
- Simulations and Virtual Work Integrated Learning let you apply your skills in simulated workplace settings and virtual business environments.

ON-CAMPUS OPPORTUNITIES

As our campus gets better and better, our students benefit.

Through campus development, students have exclusive access to more internships, placements and industry projects than ever before.

In 2018, our focus on professional education and applied research came alive with the opening of the UC Public Hospital, incorporating research and training facilities with state-of-the-art educational spaces.

CAREERS UC

We're creating an integrated, innovative, hands-on learning community. Careers UC provides advice and opportunities for student employment both on and off campus, and assists with internships, placements and student projects.

Keep an eye out for our workshops, events, online resources and individual appointments.

JOBS ON CAMPUS

We put students first for all casual and short-term jobs at UC. This means you can earn as you learn, enhancing your employability and gaining an edge in the graduate job market.

Our Jobs on Campus initiative creates exciting and diverse opportunities for students. Popular choices include roles in administration, communications, hospitality and graphic design, and jobs as videographers, peer mentors, student ambassadors and research assistants.

“

The best part of our job is putting work into the world that we're proud of, and that helps our clients achieve their goals.

”

TIM LYNCH AND COLIN HAINING

UC Alumni, Inklab founders

As the game changers and rule breakers shaping Canberra's aesthetic, UC grads Tim Lynch and Colin Haining don't believe in doing things by the book. Since opening Inklab Creative Agency in 2009, the two young guns have been driven by the desire to create great work, exactly the way they want.

Tim and Colin met while studying a Bachelor of Graphic Design at UC, and their uni friendship easily transitioned into a fulfilling work partnership. 'We share a love of design and making things better. After graduating UC and opening Inklab, our business has grown every year in both size and the quality of our work.'

By shaping a work culture that fuses passion, talent and thoughtfulness, Tim and Colin help their team bring their clients' vision to life with equal measures of electric creativity and careful consideration. 'We have high standards and we're constantly pushing ourselves to produce better projects.'

The best part of our job is putting work into the world that we're proud of, and that helps our clients achieve their goals.'

When it comes to advice for incoming UC students, Tim and Colin shoot straight from the hip. 'Don't look for shortcuts — there aren't any. Be generous with your time and always seek to make things better.'

'Get as much real-life experience as you can. If your friend asks you to design their band's poster, make it the best poster they've ever seen. Find a mentor and annoy them with as many questions as they can tolerate.'

'This career is hard work, but it's worth it.'

NEXT-LEVEL RESEARCH

OPEN YOUR WORLD

2020 COURSE GUIDE

A collaborative, innovative and dynamic research culture is woven into UC's teaching experience.

We produce high-quality, high-impact research that tackles the big challenges facing Australia and the world.

When you build upon your undergraduate studies and undertake a research degree at UC, you'll have the chance to pioneer new knowledge and have a lasting impact in your field.

Study a research degree with us and you will:

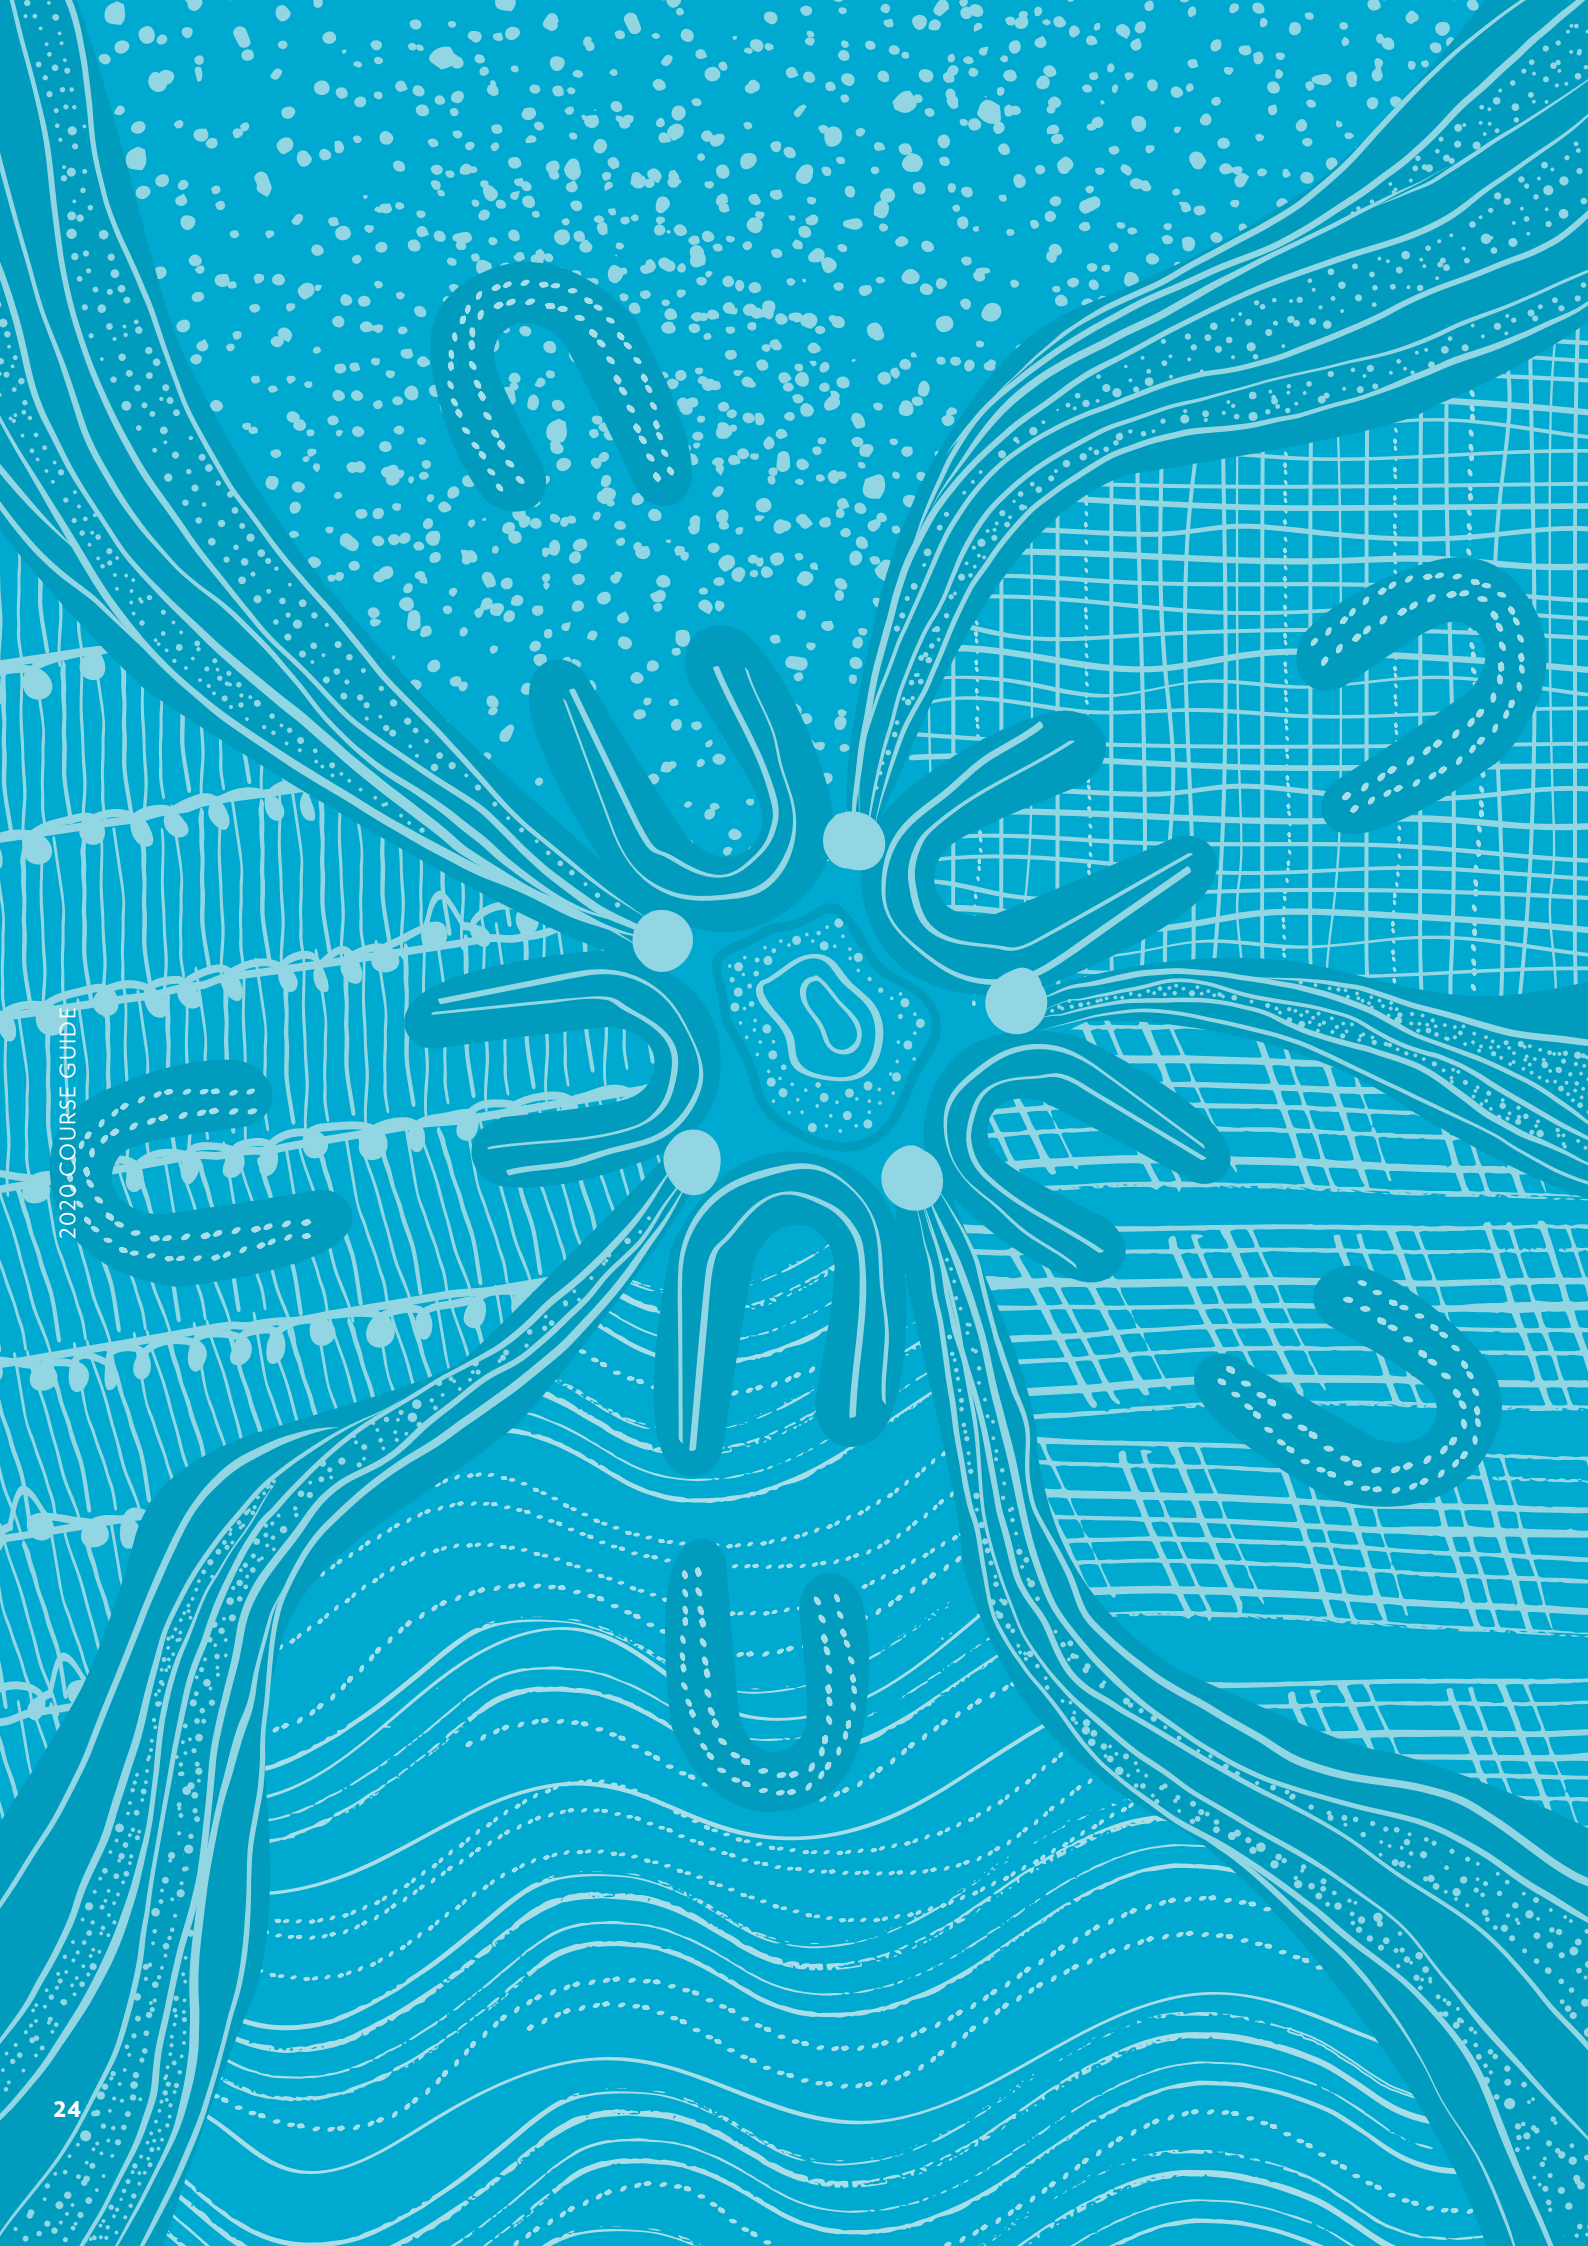

- become an expert in your field
- gain in-depth knowledge in your chosen specialisation
- benefit from mentorship by renowned experts
- enjoy new and highly resourced research facilities
- develop close affiliations with research centres and institutes pioneering knowledge

Visit canberra.edu.au/research for more information.

OUR RESEARCH MATTERS

- Dr Sudha Rao (pictured below), leading cancer researcher at UC, recently led her team to reach a major breakthrough in the treatment of metastatic breast cancer, one of the leading causes of death from cancer in women.
- Professor Gordon Waddington, Professor of Sports Medicine, has been head-hunted by NASA to produce cutting-edge research that will help astronauts walk on Mars.
- Ian Drayton, Faculty of Arts and Design, is producing life-changing research into the way creative art therapy can mediate the effects of Post Traumatic Stress Disorder.
- Dr Duanne White, Assistant Professor in Earth Systems, has adventured to the furthest ends of the globe to create an accurate new model of the evolution of Antarctica's ice sheets.

ABORIGINAL AND TORRES STRAIT ISLANDER PEOPLES

UC IS BUILT ON NGUNNAWAL COUNTRY

Australia is the home of the world's oldest continuous living cultures.

At UC, we're committed to supporting Aboriginal and Torres Strait Islander peoples working to keep these cultures alive and vibrant.

Throughout your time at UC, you'll enjoy fantastic opportunities to celebrate Aboriginal and Torres Strait Islander cultures, whether that's through participating in Indigenous Australian events, course work or supporting advocacy activities.

In addition, UC promotes the educational and professional opportunities available to Indigenous Australian peoples. We provide diverse services to ensure Aboriginal and Torres Strait Islander students and staff are empowered to achieve their best in a welcoming and culturally safe and engaged environment.

UC NGUNNAWAL CENTRE

For over 30 years, the UC Ngunnawal Centre has contributed to positive change for Aboriginal and Torres Strait Islander students. Visit the Ngunnawal Centre to access educational, social and enrichment programs including workshops, tutoring, events and one-on-one support.

canberra.edu.au/ngunnawal-centre

UC COLLEGE

UC College offers alternative entry through the Aboriginal and Torres Strait Islander Foundation Program. Designed to build higher education study skills, it's the perfect pathway for Aboriginal and Torres Strait Islander students seeking further development to meet UC's admission requirements and achieve success in higher education. Visit our website to find out how you can take control of your future today.

canberra.edu.au/uc-college

“

We want people
starting university to be
in leadership roles by 2030,
creating change.

”

VIRGINIA HAUSSEGGER

Founder, 50/50 by 2030 Foundation

For Virginia Haussegger AM, 2019's ACT Australian of the Year and award-winning journalist and advocate, UC is headquarters for a vital campaign to change the world for the next generation of leaders.

Virginia launched the 50/50 by 2030 Foundation at UC's Institute for Governance and Policy Analysis, with the aim of seeing women equally represented in leadership and key decision-making roles at all levels of government and public administration throughout Australia and across the region.

She views young people as essential to this movement. 'As students, you're key to our work. Gender equality affects us all.'

'The Foundation is focussing on the future, and the leaders of the future are entering university right now. We want people starting uni to be in leadership roles by 2030, creating change.'

'For anyone starting at UC, the time is ripe for fresh conversations.'

Get involved in the conversation by following
@BroadAgenda5050 on Twitter, Facebook and Instagram.

STUDY ABROAD

#WANDERLUST

Take the road less travelled and explore the world while you study.

At UC, we set you up for a global career by integrating international study opportunities into nearly all our courses.

When you study abroad, you're strapping in for unforgettable, once-in-a-lifetime experiences. While completing credit towards your degree, you'll gain international perspectives, lifelong friends, an internationalised degree and extraordinary employment and networking opportunities.

We make studying overseas easy by helping you tap into our network of exchange partners across the world and take advantage of funding opportunities that will help finance your international adventure.

INTERNATIONAL STUDY OPTIONS

EXCHANGE PROGRAMS

Study at one of our amazing exchange partner universities in Europe, Asia and the Americas. You remain enrolled as a full-time student and pay tuition fees at UC while overseas.

FACULTY-LED PROGRAMS

Designed and led by UC faculty members specifically for UC degrees, these short-term programs stretch over two to five weeks. Run like international field trips, these adventures form part of a unit, meaning you can travel and kick study goals at the same time.

SHORT COURSE PROGRAMS

If course requirements, work obligations or family commitments hold you back from experiencing a semester abroad, consider a short-term program. Available during the summer and winter breaks, they provide you with an opportunity to study and travel overseas without disrupting normal study periods. A popular choice is the Oxford International Human Rights Summer School.

INTERNATIONAL INTERNSHIPS

Amp up your practical experience while discovering what it's like to live and work overseas with an international internship. Internships can be organised through the university as part of our faculty led programs, or independently through external providers.

ARTS AND DESIGN

Creative thinker? Check! Full of big ideas? Check! Itching for fantastic hands-on experiences? Check! Congratulations, UC's Faculty of Arts and Design is the place for you.

Creativity is at the core of all our programs. Our internationally renowned and award-winning academics are movers, shakers and ground breakers in their field. Invested in your future, they're committed to making sure that you're inspired, supported and given the leg up you need to launch your career.

You'll develop laser sharp skills while making industry contacts. Whether you're getting your hands dirty on a construction site, assisting a film crew or breaking news in the press gallery, you'll gain rare insider insight and professional knowledge before you've even graduated.

- ✓ **Courses:** Built Environment and Design, Media and Communications or Arts
- ✓ **Work Integrated Learning:** Central to all our courses. Gain industry experience with Work Integrated Learning including internships, work placements and research projects with employers like the National Library of Australia, the Australian War Memorial and The Canberra Times.
- ✓ **Study Abroad:** Options include Exchange, Faculty Led Programs, Winter and Summer Short Term Programs and International Internships and Placements
- ✓ **Duration:** Most bachelor degrees can be completed in three years

SCIENCE AND TECHNOLOGY

If you're curious, hands-on and results driven, this is the Faculty for you.

Enjoy world-class academic programs in a dynamic and unique learning environment, and take advantage of a multi-disciplinary, work-integrated study experience like no other.

Learn from the best in the business — our high-performance cross-disciplinary team of leading educators and researchers are committed to making sure you progress toward a rewarding career in the applied sciences. By reflecting the needs of employers, our courses ensure that our graduates are in high demand.

- ✓ **Courses:** Environmental Science, Biomedical, Medical and Forensic Science, Information Technology, Information Systems, Engineering and Data Science
- ✓ **Work Integrated Learning:** Central to all our courses. Gain industry experience through Work Integrated Learning, including internships and work placements with employers like Xero, Pegasystems, PricewaterhouseCoopers, and the Office of the Gene Technology Regulator.
- ✓ **Study Abroad:** Options include Exchange, Faculty Led Programs, Winter and Summer Short Term Programs and International Internships and Placements
- ✓ **Duration:** Bachelor degrees can be completed in three years

TYPICAL STUDY PATTERN

Bachelor of Information Technology: Full time student, commencing Semester 1

YEAR 1		YEAR 2		YEAR 3	
SEMESTER 1	SEMESTER 2	SEMESTER 1	SEMESTER 2	SEMESTER 1	SEMESTER 2
Database Design	Discrete Mathematics	Mobile Technology	Security and Support in IT	Document and Workflow Management	Information and Communication Technology Project
Information Systems in Organisations	Professional Practice in IT	Software Technology	Systems Analysis and Modelling	Systems Project and Quality Management	Software Systems Architecture
Introduction to Information Technology	Software Technology 1	Open Elective Unit	Web Design and Programming	Computer and Network Security	Restricted Choice Unit
Open Elective Unit	Open Elective Unit	Restricted Choice Unit	Open Elective Unit	Restricted Choice Unit	

Hone your skills in leading facilities:

WILDLIFE GENETICS LAB

Dive into DNA sequencing, genotyping, cloning and art cytogenetic work research.

ROBOTICS WORKSHOP

Work on robotics and robotic-human interaction.

MEGA LAB

Digitally enhanced science laboratory supporting microbiology, chemistry, biochemistry, ecology and biophysical science.

INNOVATION WORKSHOP

Specialist computer lab for mobile technology and game programming .

FORENSICS LAB

Put on your CSI cap — this state-of-the-art facility was designed to mimic the Australian Federal Police lab and is used as a backup lab.

IOT LAB

Use future-focused technology in this Network Engineering Workshop, including drones, wi-fi networks and sensor equipment.

SCIENCE

Study Science at UC and watch your career options multiply.

Our versatile degrees provide you with a fantastic foundation, while letting you pursue your passions and tailor your own general science degree in areas such as mathematics, chemistry, biology, ecology, IT and more.

Take advantage of exciting Work Integrated Learning opportunities — including unique field trips, and local and overseas placements — and graduate ready to impress with practical, work-ready skills.

Career opportunities: Forensic toxicologist, DNA analyst, biomedical scientist, allied health technician, biotechnologist, medical scientist, environmental manager, water scientist, sustainability officer, ecologist, research scientist, government science policy developer

YOU'RE IN CONTROL

2020 COURSE GUIDE

You're in the driver's seat and there's no stopping you. At UC, we make sure you achieve your career and educational goals by offering qualifications and pathways tailored to your needs.

ACCELERATE YOUR DEGREE

If you're a domestic student starting full-time in Semester One at our Canberra campus, you can choose to accelerate select degrees by enrolling in the University of Canberra's Winter Term. Kick-start your career by finishing your studies six months before standard full time students.

MAJORS AND MINORS

Build your expertise and focus your study on a specific career path by selecting from a range of majors and minors.

By taking advantage of UC's diverse majors and minors, you'll enjoy the flexibility to explore subjects and faculties across the University, broadening your experience while specialising in your area of interest.

FLEXIBLE LEARNING

Looking to combine your studies with other commitments? At UC, juggling life and study is easy. We deliver our courses in diverse formats, including online, on-campus, flexible and intensive, as well as through our Australian and international partners. Combining work and study is a breeze – all our bachelor degrees are offered part time.

DOUBLE DEGREES

Fast-track your study by gaining two bachelor qualifications in less time than it would take to do them separately. By choosing from a range of double degrees, you'll develop a unique skill set, increase your employability, and give yourself an edge in the job market. All accreditation for single degrees applies for double degrees.

Our most popular options are listed below but, if you're looking for something a little different, we can work with you to find the right combination for your future career. For course details, visit canberra.edu.au/future-students

STUDENT SUPPORT

HEALTH AND WELFARE

STUDENT WELFARE

If you need help but aren't sure where to go, the Welfare Office can refer you to services at UC or around Canberra.

INCLUSION AND ENGAGEMENT

The UC Inclusion and Engagement team provides support for students with disability and/or health conditions through the provision of appropriate and reasonable adjustments. We also provide support to the University's Academic Clubs. Our friendly staff are available to offer advice and support to assist you in your studies.

FINANCIAL ASSISTANCE

If you need short term help for accommodation, books and other educational expenses, we can help. Check your eligibility for financial assistance on our website.

CAMPUS JOBS ENQUIRIES

Careers UC is here to help you find employment that suits your skills and interests. Contact them at careers@canberra.edu.au or visit them at Careers UC, Building 1, Level C, Room 42 (1C42).

FACULTY OF HEALTH CLINICS

The Faculty of Health Clinics provide health services to students, staff and the wider community. Services include physiotherapy, exercise physiology, dietetics, clinical psychology, counselling, occupational therapy, remedial massage and a sleep clinic. Concession prices are available for current UC students.

MEDICAL AND COUNSELLING CENTRE

The UC Medical and Counselling Centre is a confidential service dedicated to your needs. We provide general practitioner and nursing services to all UC students and their families, including medical consultations, vaccinations for study placements, travel vaccinations, sports medicine, emergency attendances on campus, and more.

The Counselling team, comprising registered psychologists and a social worker, is committed to helping you build emotional resilience, pursue wellness and achieve academic success.

Most of these services are either bulk billed (domestic students) or direct billed to Overseas Student Health Cover (international students).

STUDENT ADVOCACY

A free advocacy service is run by current students to enhance and assist the educational, cultural, social and financial interests of students within the University and the wider community. Student leaders represent and advocate for the diversity of the campus, which includes the supporting of international, women's, environmental, Aboriginal and Torres Strait Islander, ethno cultural and LGBTQI issues.

Visit ucunion.com.au/student-forum to find out more.

CAREERS AND WORK EXPERIENCE

CAREERS UC

Our careers service at UC helps support you find employment. We offer advice and opportunities for student employment both on and off campus, and assist with internships, placements and student projects. Gain the skills to become career ready through our many workshops, events, online resources and individual appointments.

ACADEMIC CLUBS AND SOCIETIES

There are around 60 clubs and societies you can join to meet like-minded individuals, build communities and friendships, pursue vocational interests, and get involved with industry. Visit ucunion.com.au/clubs-societies to find out more.

STUDY HELP

STUDY SKILLS

The UC Study Skills team helps you find solutions to study related problems you may be having, providing assistance with writing and grammar, researching and referencing, the structuring of assignments, avoiding plagiarism, online learning systems, maths and stats, and more. Study Skills offers orientation programs, both face-to-face and online. These include the Smart Study Transition and Orientation Program which can be done at any time through the Study Help UCLearn site. This program has multiple pathways for you to choose from to help you develop your writing, referencing and maths skills. Study Skills also runs face-to-face sessions to help you learn how to plan your studies, how to study effectively, and how to use the UC online systems.

For 24/7 study help, the Study Help UCLearn site contains online interactive learning resources to help with finding information, referencing, assignment writing, maths and stats, time management, exam preparation, and more.

PEER-ASSISTED LEARNING SESSIONS

Peer-Assisted Learning Sessions (PALS) offer extra learning and study support for traditionally difficult units. PALS leaders are past students who have succeeded in these difficult units and have received additional training to assist them in passing on their knowledge.

INTENSIVE ENGLISH

The Study Skills Intensive English Course runs four times a year: just before the start of both Semester 1 and Semester 2, and in Week 8 of both semesters. This course is free for UC students, and is designed to help you improve your English writing, reading, speaking and listening skills.

MATHS AND STATS HELP

Drop-in Maths and Stats Help (MASH) sessions are held Monday to Friday in the MASH Centre. These are open to all students, with friendly tutors available to assist with a range of mathematics and statistics queries. There are also a range of online maths and stats learning modules available on the Study Help UCLearn site.

FACILITIES

STUDENT CENTRAL

Student Central is the hub for many student services, including student administration, careers information, health and counselling assistance, support for students with a disability, student welfare and equity, International Student Support Service, and much more.

MULTI-FAITH CENTRE

The Multi-Faith Centre offers pastoral care services, providing support for worship, practice and education in religious traditions.

LIBRARY

The UC Library offers extensive information resources and reference works, including online materials, to support your study and research. You can use library facilities for individual and group study and the Library Commons is available 24-hours a day. Our library staff provide individual and group assistance, both in the library and online.

CHILDCARE

If you've got little ones in tow, childcare is easy at UC. We have two childcare facilities on campus: the Kirinari Early Childhood Centre and the Wiradjuri Preschool and Child Care Centre. Both complexes offer childcare support for the community, students and staff of the University.

CAMPUS SERVICES

On campus, you'll find everything you need, including a bank, post office, hair salon, convenience store, supermarket and cafés and restaurants offering delicious food. The Refectory food court is a great option for takeaway food and snacks. If you're after something a bit more raucous, head to our campus bar, The Well, housed in the residential precinct and providing drinks, karaoke and trivia nights for students.

Visit ucunion.com.au/eatdrinkshop to find out more.

HOW TO APPLY

YEAR 12 SCHOOL LEAVERS

Submit your application online through the Universities Admissions Centre (UAC). Your offer will be made based on your final score in your Year 12 studies.

For information on change of preference and offer rounds dates, visit uac.edu.au

NON-SCHOOL LEAVERS

If you've taken a gap year, been working since you left school, started or completed study at another institution, or completed Year 12 a year or more ago, you can apply directly by completing our online application form.

canberra.edu.au/applynow

ALTERNATIVE ENTRY SCHEMES

Taking a different path? We offer a number of alternative entry initiatives that give you the opportunity to be accepted into university. UC currently participates in the Schools Recommendation Schemes (SRS) and the Educational Access Schemes (EAS) through the Universities Admissions Centre (UAC). Before you apply, check your eligibility for these schemes to ensure you don't miss out.

ADJUSTMENT FACTORS

Adjustment factors are available to a range of eligible undergraduate students and are added to your Australian Tertiary Admission Rank (ATAR) or entry rank to give you an adjusted entry score. UC offers three adjustment factors: Subject Bonus, Educational Access Scheme (EAS) and University Priority Groups.

SCHOOLS RECOMMENDATION SCHEMES

Schools Recommendation Schemes (SRS) are available to current Year 12 students and provide an opportunity to secure an offer to a UC undergraduate course if you're recommended by your school.

SPECIAL CONSIDERATION

This option is available to all applicants who have experienced circumstances that have impacted or disadvantaged their previous study but who don't meet the criteria to receive adjustment factors.

PORTFOLIO ENTRY

This experience based entry scheme is offered by the Faculty of Arts and Design (FAD) for all applicants seeking entry to an undergraduate FAD course. Applicants can submit their portfolio directly when applying online.

For more information, email portfolio@canberra.edu.au or visit canberra.edu.au

UC COLLEGE

UC College provides pathway programs for both international and domestic students. If you aren't currently qualified to enter university through traditional entry points, our programs focus on developing the academic skills required to successfully gain direct entry to UC.

DEFERRING YOUR STUDIES

We understand that life changes and you may need to defer your offer. If you're a domestic student who hasn't yet accepted your offer, or who has accepted but hasn't yet enrolled in any units, you can apply to defer. Please note that not all courses can be deferred.

SCHOLARSHIPS

Receiving financial assistance can help you get the most out of your university experience.

Our scholarships can assist you with living costs, text books, accommodation, relocation or contribution towards your fees.

Scholarships include:

- Academic achievement and merit
- Aboriginal and Torres Strait Islander
- Australian rural, regional or remote
- Course-related
- Financial assistance

Applying is easy. Simply submit one application, and you'll be considered for every scholarship for which you're eligible.

HOW TO APPLY

CURRENT STUDENTS

After browsing what's available, click the 'Apply Now' button and you'll be asked to sign in to MyUC. The application form is located in the 'Student Forms' section.

FUTURE STUDENTS

After browsing what's available, click the 'Apply Now' button and you'll be asked to apply for admission into a UC degree. You'll need to have applied and accepted your offer in order to apply for a scholarship.

FAQ

DO I NEED TO PROVIDE ANY DOCUMENTS AT THE TIME OF APPLICATION?

No. You'll be asked a series of questions at the time of application, so please have relevant information readily available when applying.

HOW WILL I BE INFORMED OF THE OUTCOME OF MY APPLICATION?

If we identify you as being eligible for one or more unique scholarships, you may be contacted for additional information. All applicants will be notified of the outcome of their application approximately two weeks after the closing date.

WHAT ARE EXTERNAL SCHOLARSHIPS?

These scholarships are awarded by external companies or organisations. UC doesn't endorse or support any products or companies affiliated with these scholarships. They're advertised with the purpose of providing students with more options for financial support.

NEED HELP BUYING TEXTBOOKS?

A textbook bursary provides students with a \$100 Co-op bookshop voucher to assist those students experiencing financial difficulties in purchasing their textbooks. The bursary is awarded on a first-come, first-served basis and there are a limited number on offer each year.

Applications for textbook bursaries open 1 January 2020 and close when all bursaries have been awarded.

When it comes to getting accepted into your dream degree, we understand that challenges can stand in the way.

If you haven't qualified for direct entry, there's no need to stress – our on-campus education partner, UC College, can help you realise your academic potential through an alternative pathway program.

Kickstart your studies with UC College's range of Enabling and Higher Education Diploma Programs suited to both current school leavers and non-school leavers. The best bit? UC College's direct entry arrangement with the University of Canberra means you can jump straight into either the first or second year of a corresponding bachelor's degree after completing your course.*

If you've applied to UC directly but haven't received an offer, you'll automatically receive an offer from UC College.

Our highly-qualified staff are here to make sure you graduate from UC College with the skills to take on a bachelor's degree. Plus, UC College is centrally located on UC's Bruce campus, meaning you have access to the University's fantastic resources and facilities.

Get ready to do great things.

Visit canberra.edu.au/college to start your journey today.

HOW TO APPLY

1. Browse through our courses and choose the right one for you.
2. To streamline your admission process, carefully read and make sure you meet the entry requirements before applying.
3. Apply to UC College through UC's online applicant portal canberra.edu.au/future-students/apply-now or by emailing pathways@canberra.edu.au

For up-to-date course and fee information please visit canberra.edu.au/college

If you would like to make an appointment with a UC College course adviser, contact UC College Student Centre on **1800 864 226** or email pathways@canberra.edu.au

FEES

Commonwealth-supported enabling places are available for Australian and New Zealand citizens or permanent residents of Australia on each program. There is also a Student Services Amenities Fee.

The Aboriginal and Torres Strait Islander Foundation Program is free of charge.

For more information, visit studyassist.gov.au

ENABLING ACCESS PROGRAMS

PROGRAM	PATHWAY TO UC
UC Connect An enabling course for current school leavers who wish to study an undergraduate degree at UC and whose current academic qualifications do not allow them direct admission to the University. Duration: 18 weeks Intake: February and August Entry requirements: Completion of an equivalent Australian Year 12 qualification (education system of 12 years of schooling) with 3 passes in academic subjects*.	Successful completion guarantees entry into the first year of the corresponding UC Undergraduate degree.* Alternatively, students who need additional academic support will be guaranteed entry into a UC College Diploma program, which upon completion provides direct access into the second year of the corresponding UC Undergraduate degree.*
UC Prep A bridging course that helps prepare you for study in a UC Degree. It is ideal for students who may have not studied for some time. Duration: 14 weeks Intake: February, June and October Entry requirements: It is designed for students who are 21 years or older, have been out of education for more than 2 years, and/or may have experienced hardship in their previous education.	Successful completion guarantees entry into the first year of the corresponding UC Undergraduate degree.*
Aboriginal and Torres Strait Islander Foundation Program A program to help build the skills needed for study at the University of Canberra Duration: 1 semester (6 months) Intake: February, July or part-time equivalent Entry requirements: Aboriginal and/or Torres Strait Islander potential student who didn't meet the admission requirements for university.	Successful completion guarantees entry into the first year of the corresponding UC Undergraduate degree.*

HIGHER EDUCATION DIPLOMAS

DIPLOMA DETAILS

PATHWAY TO UC*

Diploma of Business

Duration: 2 terms (8 months)
Intake: February
Course Code: 933AA
UAC Code: 360015

Entry to 2nd year in:

- Bachelor of Accounting
- Bachelor of Business (Entrepreneurship and Innovation)
- Bachelor of Business (Human Resource Management)
- Bachelor of Business (International Business)
- Bachelor of Business (Management)
- Bachelor of Business (Marketing)
- Bachelor of Business (Service Management)
- Bachelor of Commerce (Accounting)
- Bachelor of Commerce (Business Economics)
- Bachelor of Commerce (Finance and Banking)
- Bachelor of Event and Tourism Management
- Bachelor of Politics and International Relations

Diploma of Business Informatics

Duration: 2 terms (8 months)
Intake: February
Course Code: 189JA
UAC Code: 360020

Entry to 2nd year in:

- Bachelor of Business Informatics

Diploma of Communication

Duration: 2 terms (8 months)
Intake: February
Course Code: 951AA
UAC Code: 360005

Entry to 2nd year in:

- Bachelor of Arts (Creative Writing)
- Bachelor of Arts (Culture and Heritage)
- Bachelor of Arts (Digital Media)
- Bachelor of Arts (Film Production)
- Bachelor of Arts (Global Studies)
- Bachelor of Communication and Media (Journalism)
- Bachelor of Communication and Media (Corporate and Public Communications)
- Bachelor of Media (Marketing Communication)
- Bachelor of Communication and Media (Sport Media)

Diploma of Design

Duration: 2 terms (8 months)
Intake: February
Course Code: 199JA
UAC Code: 360035

Entry to 2nd year in:

- Bachelor of Building and Construction Management
- Bachelor of Design (Industrial Design)
- Bachelor of Design (Visual Communication Design)
- Bachelor of Design (Interaction Design)
- Bachelor of Built Environment (Architecture)
- Bachelor of Built Environment (Interior Architecture)
- Bachelor of Built Environment (Landscape Architecture)

Diploma of Health

Duration: 2 semesters (12 months)
Intake: February
Course Code: 358JA
UAC Code: 360045

Entry to 2nd year in:

- Bachelor of Health Science (Human Movement)
- Bachelor of Health Science (Nutrition Studies)
- Bachelor of Human Nutrition**
- Bachelor of Public Health
- Bachelor of Science in Psychology

Diploma of Information Technology

Duration: 2 terms (8 months)
Intake: February
Course Code: 935AA
UAC Code: 360010

Entry to 2nd year in:

- Bachelor of Information Technology
- Bachelor of Business Informatics
- Bachelor of Software Engineering

Diploma of Network and Software Engineering

Duration: 3 terms (12 months)
Intake: February
Course Code: 353JA
UAC Code: 360024

Entry to 2nd year in:

- Bachelor of Engineering in Network and Software Engineering (Honours)
- Bachelor of Software Engineering

Diploma of Science

Duration: 2 semesters (12 months)
Intake: February
Course Code: 192JA
UAC Code: 360030

4 units (1 semester) of credit towards the following bachelor courses at University of Canberra:

- Bachelor of Applied Science in Forensic Studies
- Bachelor of Biomedical Science
- Bachelor of Environmental Science
- Bachelor of Medical Science
- Bachelor of Science

For entry into all diploma programs requires completion of an equivalent Australian Year 12 qualification with 3 passes in academic subjects.

* A student's pathway depends on the overall results they achieve and course availability.

Students must pass all course unit requirements within the program to be guaranteed entry into the University of Canberra.

** Students will receive 18 credit points (6 units) of advanced standing into the Bachelor of Human Nutrition.

FEES

As you work towards your future, there are certain fees you may need to pay throughout your studies. Fees change depending on your enrolment status and may include Student Services and Amenities Fees and tuition fees.

DOMESTIC STUDENTS

University fees for domestic students fall under one of two categories: Fee-Paying Places or Commonwealth Supported Places (CSP). How much you end up paying for your course depends on the type of fees associated with your degree.

All domestic undergraduate students are eligible for a CSP, and some domestic postgraduate students may also be eligible for a CSP depending on their course.

1. FEE-PAYING PLACES

If your course offers Fee-Paying Places, the price listed is the annual fee for students enrolled in full-time study. Although Fee Paying Places are not subsidised by the Australian Government, you can still access a FEE HELP loan to assist with paying your fees. Please see Financial Support for further information.

2. COMMONWEALTH-SUPPORTED PLACES (CSP)

If you're enrolled in a CSP, Australian Government funding covers most of your university fees and you only need to pay the amount that's left over. This is called the Student Contribution Amount. You can choose to pay your Student Contribution Amount upfront, or you can access a HECS-HELP loan to assist with your fees. Please see Financial Support for further information.

Each year, the Australian Government releases the Student Contribution Range which identifies how much a university can charge students. At most universities in Australia, including the University of Canberra, students are charged the maximum amount.

3. CALCULATING CSP FEES

The various subjects you undertake as part of your degree fall under three separate bands known as Student Contribution Bands.

You can calculate an approximate cost for your degree by selecting the Student Contribution Band relevant to your course and multiplying the full Student Contribution Amount by the number of years your degree takes to complete.

Student Contribution Amounts change each year, so the fees in the year you commence your studies may be different to those in subsequent years. You might also choose to undertake some units during your degree, as part of a major, for example, that fall under another band, and this will impact the overall cost of your degree.

FINANCIAL SUPPORT

All university fees can be paid upfront, or you can choose to use the Higher Education Loan Program (HELP) to defer paying your fees until a later date. The Australian Government Higher Education Loan Program consists of three loan schemes known as HECS-HELP, FEE-HELP, and SA-HELP.

HECS-HELP

Higher Education Contribution Scheme (HECS) is the type of loan you take out as a university student to pay your Student Contribution Amount. All students enrolled in a Commonwealth-Supported Place (CSP) are eligible for a HECS-HELP loan.

FEE-HELP

FEE-HELP is a similar loan scheme to HECS-HELP but for students enrolled in a Fee-Paying Place. FEE-HELP differs from HECS-HELP in that it has a maximum limit that can be borrowed (known as the FEE-HELP limit) and is usually for university students studying postgraduate courses. For 2019, the FEE HELP limit is \$104,440 for most students.

SA-HELP

SA-HELP is a loan scheme available to Australian Citizens that have been charged the Student Services and Amenities Fee (SSAF).

APPLYING FOR A HELP LOAN

When you enrol at university, you'll be asked to complete an online form and select your preferred billing option. You can choose to pay your fees upfront, make a partial payment and defer the remaining fee, or defer the whole payment via your HELP loan.

FURTHER INFORMATION

StudyAssist.gov.au

GLOSSARY

TERM	DESCRIPTION
Accreditation	A certification of competence in a specified subject or area of expertise awarded by a third party.
Articulation	A formal agreement between two educational institutions to award credit towards a course based on previous completion of an award program.
Australian Tertiary Admissions Rank (ATAR)	A rank calculated so that universities and other tertiary education providers can compare students who have completed different types of Year 12 study. The ATAR is used as a basis for admission into university. Other criteria may also be used in conjunction with an ATAR.
Course	A program of study, usually taking three or four years to complete. When a student completes their course, they're awarded a degree.
Credit	The recognition of prior learning and skills, which can excuse a student from undertaking certain units within a degree.
Deferring	A term used when a student receives an offer from a university but chooses to delay their start date by six months to one year.
Degree	A qualification a student earns after completing their course of study.
Discipline	A group of degrees at an institution that share common themes, units and resources.
Double Degree	Students can study two undergraduate degrees at the same time and complete both degrees in a condensed time frame.
Faculty	A collective group of associated disciplines, run by a Dean who oversees teaching and research.
HeCS (or HECS-HELP)	HECS-HELP is a financial loan available to eligible students enrolled in a Commonwealth-Supported Place at a higher education institution. Find out more at studyassist.gov.au
Honours	A one-year course for high-achieving students, typically undertaken at the end of a standard three year bachelor's degree.
Lecture	A class which presents the critical information from a unit to students.
Major	A sequence of related units that form a student's main field of specialisation within a degree. Students are required to undertake a certain number of units within this specific field to qualify with a major.
Mature Age Students	Students who are entering tertiary study and are aged 21 or over.
Minor	A sequence of related units that form a student's secondary field of specialisation within a degree. Minors also require a certain number of units to be studied.
Non-School Leaver	Students who are entering tertiary study without having graduated from Year 12 the previous year.
Packaged Offer	When a student doesn't meet the admission requirements of a degree, they may be required to complete another program of study prior to commencing study, such as a bridging course or English language program.
Pathway	Alternative entry methods into university that aren't based on a raw ATAR score, including schools' recommendation schemes, adjustment factors and bridging courses.
Postgraduate	Study undertaken after a student has already completed at least one undergraduate bachelor's degree or equivalent.
Prerequisite	Prescribed conditions students must satisfy to gain entry into a course.
Scholarship	Financial grants given to eligible students to help cover costs associated with university, based on merit, need, career or equity grounds.
School Leaver	Students who plan on studying either straight after completing Year 12 or in the following year.
Selection Rank	An adjusted score for entry into university consisting of a student's ATAR plus any adjustment factors that they are eligible for and have been awarded. Selection ranks advertised in this guide reflect the course cut-offs provided to the Universities Admissions Centre (UAC) for assessing applications to UC for the 2019 admissions round.
Tutorial	A class intended to assist students in the understanding and practical application of information provided in the lecture.
Undergraduate	A student who has not yet completed any tertiary study. Most bachelor's degrees are referred to as undergraduate degrees.
Unit	A subject of study at university. A degree is made up of units that a student must pass.
Universities Admission Centre (UAC)	UAC processes applications for admission to most undergraduate and some postgraduate courses at participating institutions (mainly located in NSW and the ACT). uac.edu.au
Work Integrated Learning	The combination of workplace experience with academic learning, assessment and support.

WE ARE UC

The University of Canberra acknowledges the Ngunnawal people, traditional custodians of the lands where Bruce Campus is situated.

We wish to acknowledge and respect their continuing culture and the contribution they make to the life of Canberra and the region. We also acknowledge all other First Nations Peoples on whose lands we gather.

Information in this guide was correct at time of printing. The University of Canberra reserves the right to change course offerings, arrangements and all other aspects without notice. Up-to-date information will be available at canberra.edu.au as changes are accredited by Academic Board.

Please note: UC College is operated by the University of Canberra College Pty Limited ABN 51 080 888 231, a jointly owned college of the University of Canberra (UC) and Navitas Limited, delivering programs on behalf of UC. UC College reserves the right to vary any matter described in this publication at any time without notice.
